Advertising your listing in the REALTORS® Real Estate Directory is as easy as entering your listing.

On the listing input sheets one of the last questions is "Real Estate Directory— Publish or Don't Publish." Simply select "Publish" to have your listing automatically downloaded in order by area and price into the Real Estate Directory. If your listing is all ready in the system, you can add it or remove it from the Directory via "Listing Maintenance." All for only \$13 per listing per issue.

We publish every other week. Enter a date into "Publish Until" to control the length of time you advertise. Cutoff is every other Tuesday at 5pm.

You can also set your listings and expertise apart from the rest with a Display Ad. Choose a quarter, half, or full page ad. Call Shelley for rates and deadlines and find out how easy it is to run a professional Display Ad.
